**What to Do When You Get to the Hospital After a Car Accident**

The immediate aftermath of a car accident can be overwhelming and confusing. The initial shock and rush of adrenaline often means that individuals do not realize that they've been hurt until the effects wear off. While victims with severe injuries will often be transported to a local hospital for emergency treatment, others may be treated and released at the scene or may be advised to visit a doctor on their own for a more thorough checkup.

Stay calm! Learn more about the steps you should take after an accident occurs.

**How to Appeal a Workers' Compensation Claim Denial**

Title 42 of the South Carolina Code of Laws is the state's workers' compensation law. It gives a person who is injured on the job or develops an occupational illness access to medical treatment provided by workers' compensation insurance, temporary compensation if the injured worker is out of work while receiving medical treatment, and compensation for any remaining disability after concluding medical treatment.

Learn the reason a claim is denied and the steps you can take to appeal the process.
