**Auto Accident Attorney: Post-Accident Checklist**

Even the safest drivers among us can be involved in an auto accident. The better prepared you are, the better you will be able to respond.

To help you to get through the many challenges that can arise after a car crash, [Jebaily Law Firm](#) presents the following Post Accident Checklist:

**Keep These Items in Your Car**

If you are involved in an accident, you will be glad that you have these items on hand:

- Current South Carolina vehicle registration
- Auto insurance-card
- Pen and notepad
- Emergency-emergency contacts list to include numbers
- Gloves and hat
- Kitty litter or sand (for getting tire traction if you are stuck in ice, snow, or mud)

Don't panic after a crash. Take a deep breath and calmly go through these remaining items and important steps to ensure you are prepared.

**Maximum Medical Improvement in Workers Compensation Claim**

While maximum medical improvement (MMI) sounds like a status that most injury victims would hope to reach, in actuality, it is often a significant concern. This is because MMI could mean the end of workers' compensation benefits.

MMI means that an injured worker has reached a point in their recovery at which their medical condition is not expected to improve, even with continued treatment. At this point, the employer and the insurance company may begin attempting to resolve the claim and try to close the books.

Are you worried about how reaching MMI could impact your South Carolina workers' compensation benefits?
