Summer Road Trip Safety Trips

What are your family's must-have road-tripping items? We hope safety makes your list every time. This summer, families will be hitting the road for vacations, family reunions, and other fun reasons to pack a suitcase. To avoid putting a damper on your drive, we recommend planning with safety. If you are traveling in-state, learn more about the [car accident statistics](#) from our roads here in South Carolina.

Before you get going, remember these year-round safety tips from the National Highway Traffic Safety Administration:

- **Stay alert**
If you are planning for a long drive, we hope you won't do it alone. Switching drivers can be helpful. If you are the only one in the car who can drive, take breaks often. Stretch, stay hydrated, and stop if you feel drowsy.
- **Ditch the distractions**
There is never a good time to text and drive, speed, or drive under the influence of drugs or alcohol. Any time you impact your coordination, reaction time, or perception, the behavior is risky.
- **Plan your route**
Do you know where you're going? Always check the weather, road conditions, and traffic. Even with a GPS providing an estimated arrival time, always leave plenty of travel time. Take your time.

Now, let's talk about your summer road trip — starting with heat-related concerns.

- **A/C issues**
Check your system before you hit the road. A drive without air conditioning can have harmful health consequences, especially for children and the elderly.
- **Heatstroke**
Never leave your child alone in a car; we will say it later in this post. [Heatstroke](#) is often deadly for children.
- **Belts and hoses**
What can the heat do to your belts and hoses? It can speed up the degradation rate of the rubber. Check to see if it's time for a change.

Lastly, let's talk about your car.

- **Stock your car**
Do you have what you need if your car breaks down? Pack a cell phone and charger, first aid kit, jumper cables, non-perishable food, drinking water, medicine, and other items. Check out a more extensive list [here](#).
- **Check your car**
Have you received a recall notice about your vehicle? There is a recall [tool](#) that makes it easy to check the status of your car. You will only need your VIN.

This is only the beginning. Check the following on your car:

- Tires
- Cooling system
- Fluid level
- Batteries
- Lights
- Wiper blades
- Floor mats

- **Check your seating arrangements**
Seat belts and car seats should be top of mind during your road trip. Everyone needs to buckle up. Based on age and weight, make sure that each passenger is either in a car seat, booster seat, or seat belt. Here is a quick recap of the rules:
 - All children under 13 years old must be buckled properly in the backseat.
 - Based on weight and age, make sure your child is in the correct car seat. Here is a helpful [resource](#). If you are wondering if you did the installation right, find an [inspection station near you](#).
 - Always be with your child in or around a vehicle.

Stay safe and have a wonderful summer!

Contact Our Experienced Accident Lawyers Today

We hope these tips keep you safe on the road. Even the best drivers experience accidents, though. If you are hurt in a car accident, we can help with a variety of cases. How to Avoid Driving Drowsy

Research published in the online journal, PLOS ONE, found that between 6-10 percent of all auto accidents are caused by fatigued (or drowsy) drivers. According to the Centers for Disease Control and Prevention, drowsy driving may be a factor in 7,500 fatal auto crashes each year in our country.

Unfortunately, as the National Sleep Foundation reports, 41 percent of those who participated in one AAA survey admitted they had fallen asleep while driving, including 10 percent who said they had done it within the previous year.

Can Workers' Compensation Benefits Pay for Your Medical Treatment?

In South Carolina, you must get treatment from the medical care provider that your employer (or its workers' compensation insurer) selects. If you go to a different doctor without the employer's or insurer's authorization, your medical expenses will not be covered.

Jebaily Law Firm knows that getting proper medical treatment is crucial for your recovery. We can help you to pursue the medical benefits you deserve. If you wish to see a different doctor, and your employer refuses to authorize a change, we can help you with filing an appeal.

Recipe of the Month

Strawberry Rhubarb Crisp

This dessert made with fresh juicy strawberries, tart rhubarb, honey, oats, and yogurt is bursting with flavor and is healthier than most.

Ingredients

Strawberry-Rhubarb Filling:

- 1 pound strawberries, hulled and sliced into small bite-sized pieces
- 1 pound rhubarb (about 4 stalks), cut into ¼ by ½-inch pieces (slice larger stalks in half lengthwise before slicing them into ¼-inch wide pieces)
- ½ to ½ cup honey* (adjust for sweetness level)
- 2 tablespoons arrowroot starch or 3 tablespoons cornstarch
- 1 teaspoon vanilla extract

Topping:

- ¾ cup old-fashioned oats
- ¾ cup white whole wheat flour or regular whole wheat flour or flour of choice
- ½ cup lightly packed brown sugar
- ¼ teaspoon fine grain sea salt
- 4 tablespoons butter, melted
- 3 tablespoons plain yogurt (Greek or regular)

Ingredients

- Preheat the oven to 350 degrees Fahrenheit. In a 9 by 9-inch baking dish, mix together the strawberries, rhubarb, honey, arrowroot or corn starch and vanilla extract.
- In a medium mixing bowl, stir together the oats, flour, brown sugar, and salt. Mix in the Greek yogurt and melted butter. Stir until all the flour is incorporated and the mixture is moistened throughout.
- Dollop spoonful of the oat mixture over the strawberry-rhubarb filling and use your fingers to break up the mixture until it is evenly distributed (no need to pack it down). Bake for 50 to 55 minutes, or until the filling is bubbling around the edges and the top is turning lightly golden. Let the crisp rest for 5 to 10 minutes before serving.
